RYA Powerboat 2 (PB2) is the perfect boat training course for the absolute beginner or a stepping stone to further courses by sharpening those existing skills.

We teach the coastal & planing version of the powerboat level 2 course. This is the highest and most versatile version of the course that will enable you to helm a boat on any type of water including rivers, lakes or the open sea.

The DSC Coxswains course provides the instruction for the skills required to drive a club support boat for any Dabchicks event. No previous experience is needed.

The Coxswains course is free of charge, but all who attend will be expected to volunteer for club events throughout the year and beyond.
