

Crew wanted for Friday racing

I am looking for some like minded people that want to get involved in the racing calendar, especially Friday nights, and mersea week.

No racing experience necessary, male or female.

Sam Pan II is a quarter tonner from the Solent fleet. She's light but stable, and has been extensively modified. She points high and is great fun to throw around the cans.

I raced last year in mersea week for a friend, but want to put my own crew together now.

If interested please get in touch.
