

The Sunset Oscars 2020

How about creating a fun instructional video on how to rig your Optimist or some other aspect that you enjoy about your sailing?

We may not be able to start Sunset just yet, but you can still get your boat out in the garden and remind yourself how to rig it up! It is amazing what you can learn by trying to explain something! You can also learn some cool skills, like how to use a camera/phone, how to make and edit a video/audio and how to get it all online.

Some suggested tips:

- Get other members of your family involved - especially your sisters/brothers and parents;
- Make it as fun and creative as you can - maybe add some jokes to help get your message across;
- Maybe try adding a music track that you like
- Take a little time to research ideas and plan your video;
- Check out some of the sailing videos already on YouTube;
- Shoot your video in short simple sections that you can edit together later into a longer film.
- Make sure you ask your parents before trying to use their phone!!!!
- Share your ideas and thoughts with your friends online if you can.
- When your video is done get your parent's to help you post it on one of the WhatsApp Groups.

We may not be able to start Sunset sailing but we can still start the Sunset fun so get out there this weekend and start filming!
